Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 28, 2013

Jocelyn Boyd
101 Executive Center Drive, Suite 100
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

While the Energy Advisory Council's work in consideration of net metering issues is important, it is also necessary to continue public discussion and consideration of how existing rules can be improved to allow for clean energy resource competition in our state.

Do you honestly think the public should have no voice in this process?
Why not consider any concerned, motivated, informed citizens as another resource for information and ideas, to the benefit of us all?

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Ms. Barbara Sanders
